The Emporia-Greenville Performing Arts Center is a state of the art facility that you will find to be comfortable and aesthetically pleasing. The 906-seat venue has been designed for optimum visibility from all sections of the theater. The entire facility is only 21 rows deep. To achieve excellent viewing angles, the seats form an "arc" around the stage. Our whole theater is comparable to the orchestra section of large theaters. Events here are largely staged by the Meherrin River Arts Council. The new Emporia-Greenville Performing Arts Center is located at the Greenville Elementary School, 1121 Sussex Drive (Highway 301 North), Emporia, Virginia.
