Lake Gaston Computer Club

P.O. Box 1533
139 Stanley Rd
Henrico 27850

Computers and their applications are fun to learn to operate, fun to use, and fun to talk about. The purpose of our club is to facilitate all three activities. We do this with meetings and forums. In the meetings we explore the capabilities of these digital marvels with presentations by locals and experts from out of town.The forums are informal affairs where interested people meet, watch demonstrations, raise questions and discuss their experiences.We also have classes on popular applications and we sponsor a number of active special interest groups ranging from digital imaging to genealogy. A key function in our operation is the much appreciated technical support group. Finally membership offers some advantageous internet service options.Click here for a calendar of meeting dates for several clubs and civic groups in the Lake Gaston area.
